

Last week Engineering tested our ramp doors and the results are as follows:

Light Duty : 2000 lbs, STD: 5-7.5 Wide

Medium Duty: 3000 lbs, STD: 8.5 Wide, Optional: 7-7.5 Wide

Heavy Duty: 4000 lbs, Optional: 8.5 Wide Car Hauler

Tests were performed with vehicles such as utility, sport side by sides, Jeep, Tacoma and others brands in type.

Common Sense must be used if loading other than that tested.

Ramp doors are designed for even distributed loads and not intended for small concentrated loads.

**Not included in our tests:**

Sub Compact Tractors, Landscape Equipment, short wheel base equipment with concentrated weights.

Sincerely,

Neo Manufacturing Engineering Department
